Applicant's arguments with respect to claims 54-56 have been considered but are moot in view of the new ground(s) of rejection.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

Claims 54-56 are rejected under 35 U.S.C. 102(e) as being anticipated by Lu(US 6,017,818).

Lu discloses the steps of forming a first conductive layer(col. 6, lines 62-66 and col. 7, lines 7-10), preventing the migration of oxygen by treating the conductive layer with a gas of diborane(col. 4, lines 1-10), and providing a second conductive layer(layer 550 in Fig. 5A).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 55 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 54 upon which claim 55 depends requires a conductive layer provided on the first conductive layer, which seems to be inconsistent with the requirement in claim 55 that a dielectric be provided on the first conductive layer.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP
